

The Delaware County Agricultural Society

Established 1833

On behalf of the board of directors of the Delaware County Agricultural Society I want to welcome our returning exhibitors and patrons and thank you for your continued support. To all those who have never exhibited or visited with us before; welcome, we're glad you have joined us this year and we hope you all take home many pleasant memories. Our fair has a proud tradition of showcasing the best of Delaware County, our youth, our communities, our agricultural heritage and the world's fastest half mile track as well as the world renowned "Little Brown Jug®."

We hope you enjoy what we have prepared for you at this year's fair. The Delaware County Fair is the result of months of planning and preparation by the volunteers who serve on the Delaware County Agricultural Society Board of Directors (aka the "Fair Board"), a host of committees and the hundreds of volunteer leaders, advisors, and instructors who are active in 4-H, FFA, FCCLA, schools, and scouting organizations. I would also like to thank each of my fellow directors, the Junior Fair Board, and last but not least the hundreds of individuals, professionals, and organizations from our community, townships, city, county, and state that all work together to support, promote, and help preserve the traditions and heritage of "our" Delaware County Fair.

In closing, have a great time at our 174th fair, catch up with all of your old friends, make some new friends, try not to eat too much, and take home some really great memories!

Sincerely,

Don Howard, President
Delaware County Agricultural Society
Board of Directors

P. S.

A special message to all of this year's exhibitors; please examine and read this fairbook carefully as there are many changes from prior years. While many rules have been consolidated, others have been revised or added. Again please pay close attention and we hope you find this new format much easier to navigate. Best of luck to you all this year!
