

The following display boards were shown at the July 10, 2007 Public Meeting. If you have questions or are unable to view any of the maps, please contact David Shipps at dfshipps@transystems.com or (614) 336-8480 for assistance.

DraftVision.pdf This is the introduction to the Master Plan and gives the rest of the Plan drive and direction. The Draft Vision was created in early 2007 by the Delaware County Fair.

PreviousMasterPlan.pdf This is the overall map of the goals from the previous Master Plan done in 1997. Most of the goals remain unfulfilled in 2007.

OverallGoals_short.pdf These represent the short term (1 to 5 years) Draft Goals for the entire Fairgrounds. The Goals were put together in early 2007 by the Delaware County Fair based upon previous unfulfilled goals that still have merit, projects currently being developed, and comments from several stakeholders and noteworthy users of the Fairgrounds.

OverallGoals_long.pdf These represent the long term (5 to 10 years) Draft Goals for the entire Fairgrounds. The Goals were put together in early 2007 by the Delaware County Fair based upon previous unfulfilled goals that still have merit, projects currently being developed, and comments from several stakeholders and noteworthy users of the Fairgrounds.

Areaplan_Map.pdf The Delaware County Fairgrounds stretches over approximately 170 acres. Therefore, the Fairgrounds was divided into eight (8) specific Area Plans based upon an existing conditions analysis, previous master plan goals, and various comments. Furthermore, each of the areas has their own unique character, building style, landscape setting, points of access, and history.

The individual Area Plans have an existing conditions map and a future condition or goals map, which includes both short and long term goals.
